

The Changing Carrier Model – PA Access to Third Party Capital Partners

19th Annual TMPAA Summit

October 23 | General Session | 8:30 AM

Non-traditional capacity continues to grow and get closer to the original risk. Program Administrators may have increased access to this new capital and the opportunity to exercise more control of their program and profits. Come listen to the experts at BMS, influential capital providers, and fronting carriers to learn how programs are now being developed with non-traditional capital and explore the new opportunities that are available for their program business.

Attendees can expect to hear:

- Why new/alternative capacity is entering the space and having success
- Hurdles Program Administrators are facing when launching a program with non-traditional capital providers (fronting carriers & reinsurers)
- Carriers decision on how to evaluate and work alongside non-traditional capital providers
- Non-traditional reinsurers view of the marketplace and how they are looking to offer new/innovative structures
